

# OTTOLENGHI

Most of our wines come from small producers, committed to preserve indigenous grape varieties, traditional wine making methods and working in harmony with nature. Some are organic, some biodynamic and most are made without any filtering and fining. We hope you'll enjoy them as much as we do.

# OTTOLENGHI

Orange wines have been produced for thousands of years and can trace their origin to Georgia. They are made from white grapes that have the skins left in contact with the juice as it ferments, giving both colour and texture to the wine. Expect wines with earth, spice and smoke which match perfectly with most dishes on our menu.
